	Pri-Pak Inc.	Salt Fork-Tanners Creek	

	Public and semi-public systems serving residential customers
	Private systems that convey sewage to public facilities

*Design Capacity per NPDES Permit is shown for wastewater treatment plants (WWTP) in millions of gallons per day (MGD); NPDES = National Pollutant Discharge Elimination System permit, which is a discharge permit for treatment facilities.

NOTE: Moores Hill has received a construction permit to increase its design capacity to 0.2 MGD and St. Leon has received a construction permit to increase its design capacity to 0.57 MGD; neither have received NPDES permits at this time.
