- 105 Putting Green
- 106 Rough
- 107 Tee (Bentgrass)
- 108 Tee (Bluegrass)

Note: These recommendations and tests are not appropriate for greenhouse media and soil mixes.

HOW TO TAKE A SOIL SAMPLE

<p>1</p>  <p>To take the sample, use a sampling tube, spade, trowel or long knife. Sample 6-8 inches deep for gardens, shrubs or trees and 3-4 inches for turf. Discard any surface residue, thatch or stones.</p>	<p>2</p>  <p>Sample different areas of the turf, garden or landscape separately. From each distinct area take several cores or slices.</p>	<p>3</p>  <p>Combine the cores or slices in a bucket and mix well. Transfer one(1) cup of the mixed sample to a soil sample or plastic bag. Label and number the sample bag.</p>	<p>4</p>  <p>Enclose the soil sample bag in a shipping box. Place this information sheet along with payment into the box with the samples. Fasten securely and ship via UPS or Parcel Post.</p>
