

## **COVID-19**

**On behalf of the Dearborn County Health Department and the Board of Health, we want to assure the public there is a process locally in place. We are monitoring the status of the COVID-19 virus frequently throughout the day. Call your physician early if you or someone in your family develops a fever, cough, difficulty breathing or respiratory symptoms and tell your provider of any recent travel, contact with travelers, or contact with a confirmed case.**

**First Responders request that those experiencing mild symptoms speak with their Doctor, Urgent Care, or Hospital ER via phone about which steps to take next. This will allow for emergency response services to better meet the needs of those with more severe respiratory illness.**

**For information regarding COVID-19 on Weekends, Holidays, and After hours, please Contact Indiana State Department of Health Epidemiology Center (317) 233-7125 or (317) 233-1325**

**Thank You**
