

Use Development Standards

Use Development Standards (Article 25, Section 2585 **New Section)

1. Agritourism.

- a. **Purpose.** The purpose of regulating agritourism is to allow opportunities for limited non-residential activities that make use of the existing rural character and activities in the town. The agritourism use should be accessory to an active agricultural use. For purposes of these standards, special event facilities, wineries, breweries, and distilleries are not considered an agritourism activity.
- b. **Use and Operational Standards.**
 - i. **Hours of Operation.** Hours of operation must be provided in writing by the applicant. The Administrator and/or BZA may alter the requested hours of operation for the agritourism uses consistent with the character of the land uses in the vicinity and may require additional conditions to ensure adherence to the established hours of operation.
 - ii. **Types of Uses Permitted.**
 - i. New uses and their buildings shall be located, designed and operated so as not to interfere with normal agricultural practices on and off site. Poor agricultural soils or lands otherwise not suitable for agricultural purposes are recommended for building locations.
 - iii. **Types of Uses Prohibited.**
 - i. Motorized off-road vehicle racing or other similar motor vehicle activities, including tractor pulls.
 - ii. Other uses that the Administrator and/or BZA determines would disturb the general peace and enjoyment of the rural and/or residential character of the surrounding area due to excessive traffic, noise, smoke, odors, visual clutter, or other nuisances.
- c. **Development Standards.**
 - i. **Access.** Access to the facility shall be approved by the Administrator and the applicable Highway Department.
 - ii. **Bufferyards and Fencing.** Opaque screening, consisting of an earth berm, evergreen screen, or an obscuring wall or fence shall be provided near the primary public activity areas on those sides abutting or adjacent to a residential use. The use of natural landscape materials is encouraged. At a written request of the applicant, the Administrator and/or the BZA may grant relief of the screening requirement in specific cases where cause can be shown that the distance between the agritourism and residential use would not require screening.
 - iii. **Lighting.** Any exterior lighting installed related to an agritourism use or activity shall be appropriately shielded and directed downwards to minimize light pollution. (See Article 21, Section 2140)
 - iv. **Trash Receptacles.** Trash receptacles shall be provided. If dumpsters are provided, they shall be placed on a hard surface and shall be completely obscured from view by an opaque fence or wall. (See Article 22, Section 2255)
 - v. **Sanitation.** Public restroom facilities, temporary or permanent, shall be provided on site and with approval of the Dearborn County Health Department if required. Year-round operations shall have permanent public restroom facilities. Seasonal operations are not required to have permanent public restroom facilities, unless required by the Dearborn County Health Department.
 - vi. **Zoning District Standards.** All other development standards of the subject zoning district shall apply.
- d. **Procedures.**
 - i. **Site Plan Approval.** An agritourism facility requires development plan approval.
 - i. **Narrative.** As part of the application for development plan approval, a written narrative shall be submitted describing the use in detail, including both agriculturally related and non-agriculturally related products and uses; proposed hours of operation; measures that are to be taken to assure that the operation of the use will take place only in a safe and convenient manner; special events; and other information describing the use and which will assist the Administrator and/or the BZA in determining whether the application meets the requirements.

2. Campground.

- a. **Use and Operational Standards:** Living arrangements are of transient or seasonal use; no permanent living structures.

3. Child Care Center, Class I and II.

- a. **Procedures:** Site Plan review is required.

4. Child Care Home.

- a. **Use and Operational Standards:** IC 36-7-4-1107 and IC 36-7-4-1108 apply.

Use Development Standards

6. Clubhouse, Community Center, and Similar Facilities.

- a. **Use and Operational Standards:** Facility must be an integral part of a residential development and the membership is limited to residents of a common development or neighborhood.

7. Confined Feeding Operation.

- a. **Purpose.** The purpose of these confinement operation standards is to ensure that both the operation and the existing land uses surrounding the operation are protected from the negative impacts that each may cause the other.

b. **Lot Standards.**

- i. **Area.** Minimum lot area for a confinement operation shall be forty (40) acres.
ii. **Road Frontage.** Minimum road frontage shall be fifty (50) feet as a conforming panhandle, and 200 feet otherwise.
iii. **Setbacks and Use Separations.**

- (a) **General Setbacks.** A confinement operation shall have a general setback of one hundred (100) feet from the property line (in an Agricultural District). This setback requirement includes any structure or improvement utilized in carrying on of a confinement operation, including any lagoon, open manure storage area, deep pit manure storage structure, silage storage area, silage storage building or structure, and deep pit manure storage area.
- (b) **Separation from Municipal Boundaries.** No confinement operation is allowed to be sited within one (1) mile of an existing incorporated area within the jurisdiction.
- (c) **Separation from Residential Uses.** If adjacent to a residential zoning district, primary and accessory structures associated with the operation shall be set back at least two hundred and fifty (250) feet from the adjacent property line.
- (d) **Separation from Schools.** A confinement operation with a lagoon, open manure storage, deep pit manure storage and/or any silage storage that is not within an enclosed structure shall have a minimum setback requirement for such lagoon, open manure storage, deep pit manure storage and/or any silage storage that is not within an enclosed structure of two thousand six hundred forty (2,640) feet from any school. For purposes of this standard, a school shall mean the structure(s) which is the improvement situated upon school property and is the primary structure utilized for classroom academic pursuits.
- (e) **Separation from a Public Gathering Place.** Confinement operations with deep pit manure storage and/or any silage storage that is not within an enclosed structure shall have a setback requirement that such deep pit manure storage, together with any improvement or structure, not fully enclosed, in any way utilized in conjunction with, or to house, said manure pit or silage structure(s) shall be a minimum setback of one thousand three hundred twenty (1,320) feet from the property line upon which such pit or silage is situated and the property line of the property upon which a public gathering place or a protected use is situated.
- (f) **Satellite Manure Storage Structures.**
- (i) No satellite manure storage structure which is under one million (1,000,000) gallon capacity, or five thousand (5,000) cubic yards, is permitted to be sited within one thousand (1,000) feet of an existing residence or Residential Districts R1, R2, or R3.
- (ii) No satellite manure storage structure with a capacity in excess of one million (1,000,000) gallons or five thousand (5,000) cubic yards is permitted to be sited within one thousand five hundred (1,500) feet of an existing residence or Residential Districts R1, R2, or R3.

c. **Use and Operational Standards.**

- i. **Manure Application.** Manure applied on the soil in accordance with the conditions of the Confinement Operation operator's permit shall be incorporated into the soil within twenty-four (24) hours of application.

d. **Development Standards.**

i. **Access.**

- (a) **Corner Lots.** Where a confinement operation is situated on property with frontage on more than one road, the operation shall be designed so that the primary access is onto the road with the higher classification as defined in the Thoroughfare Plan.
- (b) **Truck Access.** A confinement operation shall be designed to allow trucks to leave the premises without backing onto any public way of any description whatsoever. Any proposed turn-around which contemplates T-turns or has a turn-around with a diameter of less than one hundred twenty (120) feet shall be shown by the applicant to be adequate to comply with the requirements of this UDO. Driveway, truck turn-arounds, and truck parking must have a dust-free, all-weather surface. The applicant shall take all reasonable steps to

Use Development Standards

prevent mud, manure, gravel, and other foreign substances from trucks and other equipment being deposited on any public right-of-way. The burden shall be on the applicant to demonstrate that the proposed turn-around and egress complies with the requirements herein.

ii. **Zoning District Standards.** All other development standards of the subject zoning district shall apply.

e. **Procedures.**

i. **Application.**

(a) Major Site Plan approval is required for all confinement operations and their associated primary and accessory structures.

(b) **Deed Restriction Required.** A deed restriction shall be recorded in perpetuity that prevents the established parcel from being reduced or further subdivided. A copy of the recorded restriction shall be submitted prior to the issuance of a Site Plan or Improvement Location Permit.

ii. **Permits.** An ILP is required for the construction of all primary and accessory structures.

8. **Dwelling, Accessory.**

a. **Development Standards:**

i. The accessory dwelling unit must conform to all locational requirements of single-family units;

9. **Golf Course with Clubhouse/Restaurant.**

a. **Development Standards:** Minimum lot size is 60 acres for each nine-hole course

Manufactured and Mobile Homes

Manufactured home means a structure, transportable in one or more sections, which in the traveling mode is 8 body feet or more in width or 40 body feet or more in length or which when erected on-site is 320 or more square feet and which is built on a permanent chassis and designed to be used as a dwelling with or without a permanent foundation when connected to the required utilities, and includes the plumbing, heating, air-conditioning, and electrical systems contained in the structure. This term includes all structures that meet the above requirements except the size requirements and with respect to which the manufacturer voluntarily files a certification pursuant to §3282.13 of this chapter and complies with HUD's Manufactured Home Construction and Safety Standards (the Standards, covering Body and Frame Requirements, Thermal Protection, Plumbing, Electrical, Fire Safety and other aspects of the home, published under 24 CFR Part 3280). The term does not include any self-propelled recreational vehicle. Calculations used to determine the number of square feet in a structure include the total of square feet for each transportable section comprising the completed structure and are based on the structure's exterior dimensions measured at the largest horizontal projections when erected on site. These dimensions include all expandable rooms, cabinets, and other projections containing interior space, but do not include bay windows. Nothing in this definition should be interpreted to mean that a manufactured home necessarily meets the requirements of HUD's Minimum Property Standards (HUD Handbook 4900.1) or that it is automatically eligible for financing under 12 U.S.C. 1709(b). Mobile homes do not include modular homes, dwelling units with automotive capabilities, or recreational vehicles. (Also see Mobile Home and Modular Home)

Multi-Family Dwelling Unit

Produce Stand

Seasonal: A temporary activity where a single vendor/property owner sells agricultural products (not including live animals) that are produced on the same property in an area that does not exceed two hundred (200) sq ft.

Year Round: a activity where a single vendor/property owner sells agricultural products (not including live animals) that are produce on the same property in an area that does not exceed two hundred (200) sq ft.

Short-Term Rental

In accordance with *IC 36-1-24-6*, the rental of a single-family home, an accessory dwelling, a duplex, a multi-family dwelling, or a condominium for terms of less than thirty (30) days at a time through a short-term rental platform.

Single-Family Attached Dwelling Unit

A dwelling unit that is attached to one or more dwelling units, but is subdivided by property lines. Examples include townhomes or landominiums.

Single-Family Detached Dwelling Unit

A dwelling containing one (1) dwelling unit and that is not attached to any other dwelling by any means and is surrounded by open space or yards.

Single-Family Dwelling Unit

A residential building or structure designed, constructed and occupied by persons living as one housekeeping unit using one kitchen facility. A single-family dwelling unit does include a residential care facility for handicapped persons.

Definitions

Special Event Facility (Wedding Barn)	A facility where special events are permitted to occur generally with a use agreement between a private group or individual and the facility owner. For purposes of this definition, a special event may include a celebration, ceremony, wedding, reception, corporate function, or similar activity for the benefit of someone other than the property owner that takes place on a periodic basis, involving the gathering of individuals assembled for the common purpose of attending a special event.
Townhouse Dwelling Unit	A single-family attached dwelling consisting of one dwelling from ground to roof, a separate entrance and having more than one floor or story, but sharing walls with another dwelling unit or an accessory structure of another dwelling unit, where three or more dwelling units attached.
Two-Family Dwelling Unit	A dwelling on a single parcel containing two (2) dwelling units, each of which is totally separated from the other by an unpierced wall extended from ground to roof or an unpierced ceiling and floor extending from exterior wall to exterior wall, except for a common stairwell exterior to both dwelling units. An example of this is a duplex.
Vineyard	A plantation of grape-bearing vines, grown mainly for winemaking, but also raisins, table grapes and non-alcoholic grape juice.
Winery/Brewery/Distillery	A licensed building or property whose primary purpose is to produce and sell alcoholic beverages for distribution and may include accessory commercial facilities such as a tasting room, restaurant, and event facilities.
